FOR

HOME
OF THE
TIGERS

THE
1984
FORT
TOWSON
TIGER

In Memory of Richard Harkins & Kyle Marsh

I know we all miss them so
but in our hearts will never let
them go;

We'll never forget the good times
with them, they were the best
a very special friend!

Our love for them we tried to
show and the place in our hearts
for them still grows.

We'll never forget the times we all
were together and I know we'll
remember them forever!

Richard Harkins

Kyle Marsh

DEDICATION

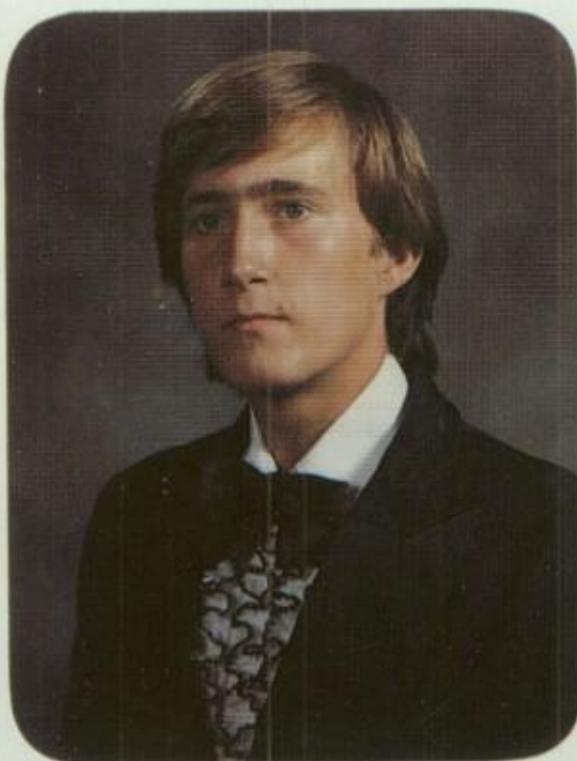

The annual staff dedicates the 1983-84 Yearbook to Mrs. Tepe. Mrs. Tepe has been in our school system since 1965. She has been a dedicated teacher to many students. Many of homes across and country are better because either the wife or husband has shared Mrs. Tepe's wisdom. She has not only led in the class room but also directed extra curricular activities such as class sponsor and cheer-leading.

We will always remember you in times to come. We hope that in the future, you will look back on us and thank yourself for doing such a wonderful job. You have opened our eyes to the future and showed us what life is really about.

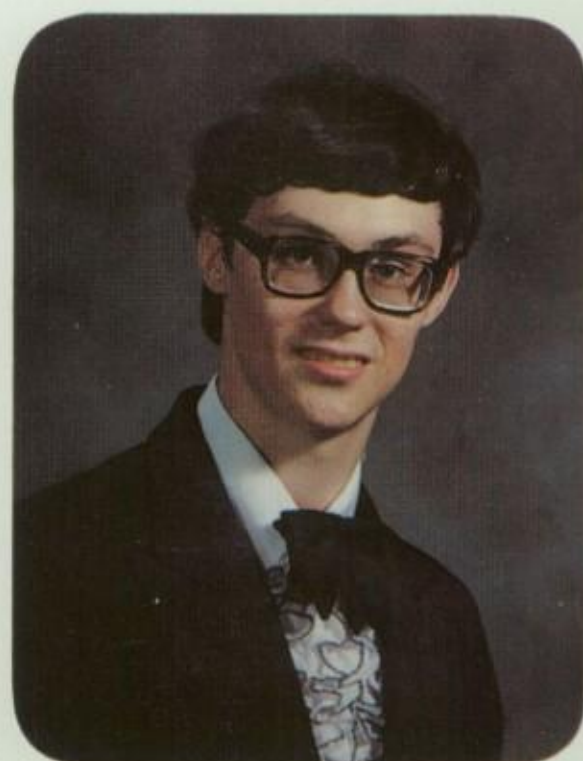

Mrs. Tepe, we salute you for your love and dedication to your past and present students.

Largest and Friendliest Sporting
goods store in Southeast Oklahoma
and Northeast Texas.

It's easy to see why
I'm proud to be
a Shelter Agent.

My policyholders have faith
in me because I've helped
secure their future. And
again. For countless families
I've provided shelter from
worry about the unexpected.
I'm an agent of Shelter Insurance.
And for your home and car,
your life and health. I have
all the shield you'll ever need.

All The Shield You'll Ever Need.

Cut energy costs

AES Wind Turbines, the only system with the patented Reinke Rotor, can free you from high energy costs. The unit connects to the electrical system of your home or business and, with very little wind, generates power and thus reduces your utility bill...when it generates more than you use, the power is fed back to the utility company, which is required by law to credit your account with the excess. Your utility bill could be zero for the month!

LOADED WITH FEATURES

- Based on the power curve and blade diameter, AES has the lowest cut-in speed in the industry...5 MPH!
- Patented 3-blade design means low-wind efficiency and low-noise operation.
- Virtually maintenance-free.
- Rugged, long-life construction.
- Automatic wind-storm shut-down—manual re-start.
- Does not interfere with short wave, TV, radios, etc.
